PEOPLE PORTRAIT SHOTS: (including single, couple, small groups or family portraits)

You can either choose to have an in studio shoot or on location. You can even do a few wardrobe changes so that you have a nice range of photos. When you display the photos it will appear as if you did the shoot on different days. In both instances, you prepare your own make-up, hair and wardrobe.

In studio – white background

Boasting an in-house studio in Krugersdorp (Gauteng), the atmosphere is relaxed and friendly.

1 Hour shoot R300 – including 5 Jumbo prints and one A4 print

Half day shoot (about 4 hours) R800 – including 10 Jumbo prints and one A4 print

Full day shoot (about 8 hours) R1500 – including 15 Jumbo prints and one A4 print

On location

If you decide to shoot on location (like the outdoors, your own home or a venue), I bring studio lights where required. Bear in mind that sometimes you would have to change wardrobe behind a tree or a rock, in a car, or behind a screen. That's how they do it in real life. On location shoots are always fun and could have a calming effect on you and it shows in the pictures too!
